ASV 3 Saddle-mounting device

Mobile Saddle-mounting device for heating tool saddle welding of weld-on saddles and multiple saddles for main pipe sizes DA 50 up to DA 400. Main pipe tensioned and held in place by belts. With the aid of exchangeable reductions there is the possibility to weld different outgoing tube flanges. The scale for clamping pressure can be set. The heating tools for saddle welding are with anit-adhesive coating.

Main pipe sizes DA 50 - 400
Outgoing tube flanges DA 20 - 110

ASG 3 Manual welding tool

The manual welding tool for ASV 3 saddle-mounting device. The control is electronic or thermostatic. An ON/OFF-switch and an indicator lamp for heating intervals are integrated in the handle. The manual welding tool is adjustable from 50° to 280°C (122° - 572° F). There is a guide stop to limit penetration depth.

article no.	type	control	volts	watts	weight
300 206	ASG 3 T	thermostat	230	1000	5,5 lbs 2,4 kg
300 207	ASG 3 E	electronic	230	1000	5,5 lbs 2,4 kg
302 944	ASG 3 T	thermostat	110	1000	5,5 lbs 2,4 kg
300 208	ASG 3 E	electronic	110	1000	5,5 lbs 2,4 kg
300 209	ASV 3				28,0 lbs 12,5 kg

Accessories:

- Reducing semi-shells from DA 20 - 90 according to outgoing tube flange
- Saddle heaters (depending on outgoing tube flange and main tube size)

Please mention main tube size and outgoing tube flange with your order!
